

# HARP

## Hire And Remain Productive

Hiring is messy and unproductive, it often comes at the cost of your roadmap or backlog and only pays dividends months later.

1000ml has created an On-boarding (and general Hiring) practice to get you the best (and often most cost effective) talent by...

### Creating the talent pool for you!

We help your business in a multitude of ways:

#### Utilizes our project-based mantra:

- Why reinvent the wheel? 1000ml has been Mentoring new grads and other entry level candidates for years

- We have modules and projects available for simple things such as Excel or Tableau data analysis all the way through to deep reinforcement learning and GANS.

#### Your staff; your projects

- We only on-board using our partners' data so that we can lead the candidate through YOUR stack and YOUR data.

#### Interview methodology

- Want to lighten the load even more? We will run the entire technical interview for you; now that we know your stack.
